Spices and Condiments Sectional Committee, FAD 9

FOREWORD

This Indian Standard was adopted by the Bureau of Indian Standards after the draft finalized by the Spices and Condiments Sectional Committee had been approved by the Food and Agriculture Division Council.

Tamarind powder (*Tamarindus indica* L) is an important condiment used daily as a sour ingredient in the Indian cookery. India produces about 2.5 lakh tonnes of tamarind pulp per annum, bulk of it coming from the states of Madhya Pradesh, Andhra Pradesh, Tamil Nadu and Orissa, and to a limited extent from Bihar, Maharashtra and Karnataka. For better compactness and for greater convenience in use and handling a method has now been standardized for the production of dehydrated free flowing tamarind powder.

Tamarind pulp, as obtained from the trade is manually cleaned deseeded and fibre removed. The pulp is processed under standardized conditions of temperature and humidity to obtain an acceptable product in a powder form possessing good reconstititional characteristics.

This standard is subject to the restrictions imposed under the *Prevention of Food Adulteration Act*, 1954 and Rules framed thereunder, wherever applicable.

For the purpose of deciding whether a particular requirement of this standard is complied with, the final value, observed or calculated, expressing the result of a test or analysis, shall be rounded off in accordance with IS 2 : 1960 'Rules for rounding off numerical values (*revised*)'. The number of significant places retained in the rounded off value should be the same as that of the specified value in this standard.

Indian Standard

SPICES AND CONDIMENTS — TAMARIND POWDER — SPECIFICATION

1 SCOPE

1.1 This standard prescribes the requirements for tamarind powder.

2 REFERENCES

2.1 The following Indian Standards are necessary adjuncts to this standard:

IS No.	Title
1797 : 1985	Methods of test for spices and condiments (<i>second revision</i>)
2491 : 1972	Code for hygienic conditions for food processing units (<i>first revision</i>)
5955 : 1993	Spices and condiments — Tamarind concentrate — Specification
7807 : 1975	Method of test for asafoetida
13145 : 1993	Spice and condiments — Methods of sampling (<i>first revision</i>)

3 REQUIREMENTS

3.1 Description

The tamarind powder shall be prepared from cleaned, deseeded, defibrinated tamarind pulp under standardized conditions of temperature and humidity.

3.2 Freedom from Fungal Growth and Insect Infestation, etc

The tamarind powder shall be free from fungal growth and insect infestation when examined by naked eye (corrected for abnormal vision).

3.3 The tamarind powder shall also comply with the requirements given in Table 1.

3.4 Tamarind powder shall be manufactured and packed under hygienic conditions (*see* IS 2491 : 1972).

4 PACKING AND MARKING

4.1 Packing

The tamarind powder shall be packed only in sound, clean, and dry containers made of tin, glass or paper carton lined with a polyethylene liner of 300 gauge; or laminated aluminium foil packs; or cellophane bags. If a polyethylene liner is used in tin-plate containers, it may be 150 gauge. The container shall be free from any fungal or insect-infestation and shall be free from any undesirable smell.

4.1.1 Small containers may be packed in wooden or cardboard cases.

4.2 Marking

The following particulars shall be marked or labelled on each container:

- Name of the material and the trade-mark or brand name, if any;
- Name and address of the manufacturer;
- Batch or code number;
- Net mass; and
- Date of packing.

4.2.1 If the containers are packed in cases, each case shall also be marked with the particulars (a) to (e) in 4.2.

5 SAMPLING AND TESTS

Representative sample of the material shall be drawn as prescribed in IS 13145 : 1993. The sample of tamarind powder shall be tested for ascertaining conformity of the material to the requirements of this specification by the methods of test given in IS 1797 : 1985 and IS 7807 : 1975.

Table 1 Requirements for Tamarind Powder
(Clause 3.3)

Sl No.	Characteristics	Requirements	Method of Test, Ref to
(1)	(2)	(3)	(4)
i)	Moisture, percent by mass, <i>Max</i>	8.5	Cl 9 of IS 1797 : 1985
ii)	Total ash, percent by mass, <i>Max</i>	3.0	Cl 6 of IS 1797 : 1985
iii)	Acid insoluble ash, dilute in HCL, percent by mass, <i>Max</i>	0.5	Cl 8 of IS 1797 : 1985
iv)	Crude fibre, percent by mass, <i>Max</i>	3.5	Cl 13 of IS 1797 : 1985
v)	Added starch, percent by mass, <i>Max</i>	35	Cl 8 of IS 7807 : 1975
vi)	Tartaric acid (on dry basis), percent by mass, <i>Max</i>	25	Annex D of IS 5955 : 1970

Standard Mark

The use of the Standard Mark is governed by the provisions of the *Bureau of Indian Standards Act, 1986* and the Rules and Regulations made thereunder. The Standard Mark on products covered by an Indian Standard conveys the assurance that they have been produced to comply with the requirements of that standard under a well defined system of inspection, testing and quality control which is devised and supervised by BIS and operated by the producer. Standard marked products are also continuously checked by BIS for conformity to that standard as a further safeguard. Details of conditions under which a licence for the use of the Standard Mark may be granted to manufacturers or producers may be obtained from the Bureau of Indian Standards.

Bureau of Indian Standards

BIS is a statutory institution established under the *Bureau of Indian Standards Act, 1986* to promote harmonious development of the activities of standardization, marking and quality certification of goods and attending to connected matters in the country.

Copyright

BIS has the copyright of all its publications. No part of these publications may be reproduced in any form without the prior permission in writing of BIS. This does not preclude the free use, in the course of implementing the standard, of necessary details, such as symbols and sizes, type or grade designations. Enquiries relating to copyright be addressed to the Director (Publications), BIS.

Revision of Indian Standards

Indian Standards are reviewed periodically and revised, when necessary and amendments, if any, are issued from time to time. Users of Indian Standards should ascertain that they are in possession of the latest amendments or edition. Comments on this Indian Standard may be sent to BIS giving the following reference:
